

Amendments to the Specification:

Please replace the paragraph beginning at page 45, line 5 as with the following amended paragraph:

The localization of INDY was also determined using staining with an anti-INDY antibody. Two INDY peptides were used to generate antibodies in a rabbit: (~~181-197~~) EPQ YQI VGG NKK NNE DE (amino acid residues 181-197 of SEQ ID NO:2) and (~~281-298~~) RPK SKE AQE VQR GRE GAD VA (amino acid residues 281-300 of SEQ ID NO:2).
